

GRAND HOTEL VILLA DE FRANCE

Introduction

In Tangier, everything begins with the sea, and everything leads back to the sea. From the terrace of the idle, look out at this living tableau that has captivated so many artists : the harbour, the green and blue waters of Gibraltar and, in the distance, Andalusia glowing in the glowing light of the setting sun. At the cross road of Europe and Africa, of the Atlantic and the Mediterranean, Tangier opens the door onto morocco. Since its foundation, Tangier has been coveted by many different peoples and many different powers. Conquered, won back, liberated but its power of reduction remains the same. It attracts tourists from all over the world, as well as Moroccans by its refreshing climate. Tangier has long been coveted for its strategic position.
